Dutch and English Clinkers, and every description of materials of the best manufacture cheaper than any other house.—WARD and CO., Importers and Exporters, Hadstone Wharf, Snahehill; and Jamaica Coffee-house, Cornhill, London.

BRICKS.—H. DODD is enabled to offer his BRICKS, which are of good quality, at the following low prices; and as his fields are only a quarter of an hour's walk from the City, H. D. earnestly requests purchasers will favour him with a visit, in order he inspect his stock and to judge for themselves:—

	Per Thousand.
Marle cutters	34s.
Fallow seconds	30s.
Pale seconds	28s.
Paviors	42s.
Pickings	25s.

Delivered within Two miles of the fields.

Marle place half-washed stocks, and place bricks, at equally low prices. These bricks are sound, well burnt, and invariably free from defects; a very large proportion of the stock being suitable for external facing. Apply to HENRY DODD and Co., at the Chequers-house, Brixton Wandsworth, Grange-walk, near the Rosemary Branch, Horsey. N.B.—Red pit sand of approved quality constantly on sale, upon reasonable terms; this sand, from its not containing any saline matter, is esteemed to be preferable to river sand.

PATENT BRICK, TILE, and PIPE MACHINE, and PATENT DRAINING BRICKS.—MESSRS. RANDELL and SAUNDERS are prepared to receive orders for their PATENT BRICK, TILE, and PIPE MACHINE. Also to grant a limited number of licenses to manufacture their PATENT DRAINING BRICKS. These bricks form a drain of much greater strength than the stone ware or red ware pipes at a much less cost. The BRICK MACHINE and also specimens of the DRAINING BRICKS can be seen at the Great Exhibition in Class 6, No. 204.—Bath, May 1851.

STOCK and SON'S SOIL-PAN SERVICE-BOX.

The object of this contrivance is to facilitate the introduction of many improvements into the dwellings of the working classes, by the adoption of such an arrangement of cheap soil-pan apparatus as shall enable the "constant supply" system of water service to be made available for the removal of the refuse by the means of the ordinary water-closet, by which water communication now so strongly and so properly objected. By the use of this service-box an ample supply of water is obtained, without the possibility of its being wasted by propping the valve, weighting the handle, or by other means. It is so constructed that, as long as the cistern above remains supplied, a further supply cannot enter the apparatus from the main.—Drawings and description may be obtained from STOCK and SON, manufacturers of plumbers' brass-work, die-stamps, and church furniture, in iron and brass, Tenby-street, Birmingham.

STANDING, FRANKLIN, & STANDING,
Patentees and Manufacturers of the PATENT GLAZED STONE WARE SEWAGE PIPE. Offices, 26, Cornhill, entrance in Change-alley; Factory, Brunton's Wharf, Commercial-road, Limehouse.

By employing their patent machinery, S. F. and S. are enabled to produce a pipe for sewage and other purposes in every way far superior to those made by any other process, but more especially in those qualities so absolutely essential to a perfect, and cleanly mode of drainage. From the great and uniform amount of pressure, and peculiar construction of the machinery all wearing the air to escape, and in manufacturing, their pipes are entirely free from air bubbles, proving their greater strength, durability, and general preventing the continual percolation (through) they are rarely rendered on the inside, insuring a perfect passage for the sewage, and preventing any deposit.

Specimens may be seen at the office, 26, Cornhill, where prices, &c., may be obtained, and licenses granted for the use of the patent machine.
